

2 May 1979

STAT NOTE FOR: [REDACTED]
Acting Director of Security
STAT FROM: [REDACTED]

On 1 May 1979, Dave McCabe from Department of State SY, visited CIA and reviewed, with [REDACTED] and myself, the outline of what considered appropriate to discuss with Mr. Latimer with whom he is scheduled to meet on 2 May. STAT

The outline reflects an all encompassing coverage of the investigative issue ranging from conceptual philosophy to technical. There was nothing in the outline that was classified and there would be no reason to object to McCabe informally discussing the whole gamut.

With his obvious command of the history of investigations in the government, McCabe seems like a good point man. He is sensitive enough to parochial preserves and will direct Latimer to the agency concerned for details on specific issues.

MCCabe said he would give us a feedback following his meeting with Latimer.
